Vous qui êtes arrivé.e.s de loin et qui avez repoussé
nombre de frontières,

Vous qui avez fait vibrer le cégep par mille activités
et votre implication spontanée,

Vous qui avez été tutrice ou tuteur, qui avez aidé
et créé une véritable vie communautaire,

Vous qui avez relevé des obstacles et qui avez travaillé
d'arrache-pied,

Vous, les passionné.e.s, les curieux et curieuses,
les minutieux et minutieuses,

Qui nous amenez toujours plus loin,

Vous, parce que vous pouvez être fier.es
du chemin parcouru,

Bravo et merci

Congratulations to the extraordinary class of 2020!

Historically, one of the most common sayings at St. Lawrence was, "It is not how you start; it is how you finish that matters!"

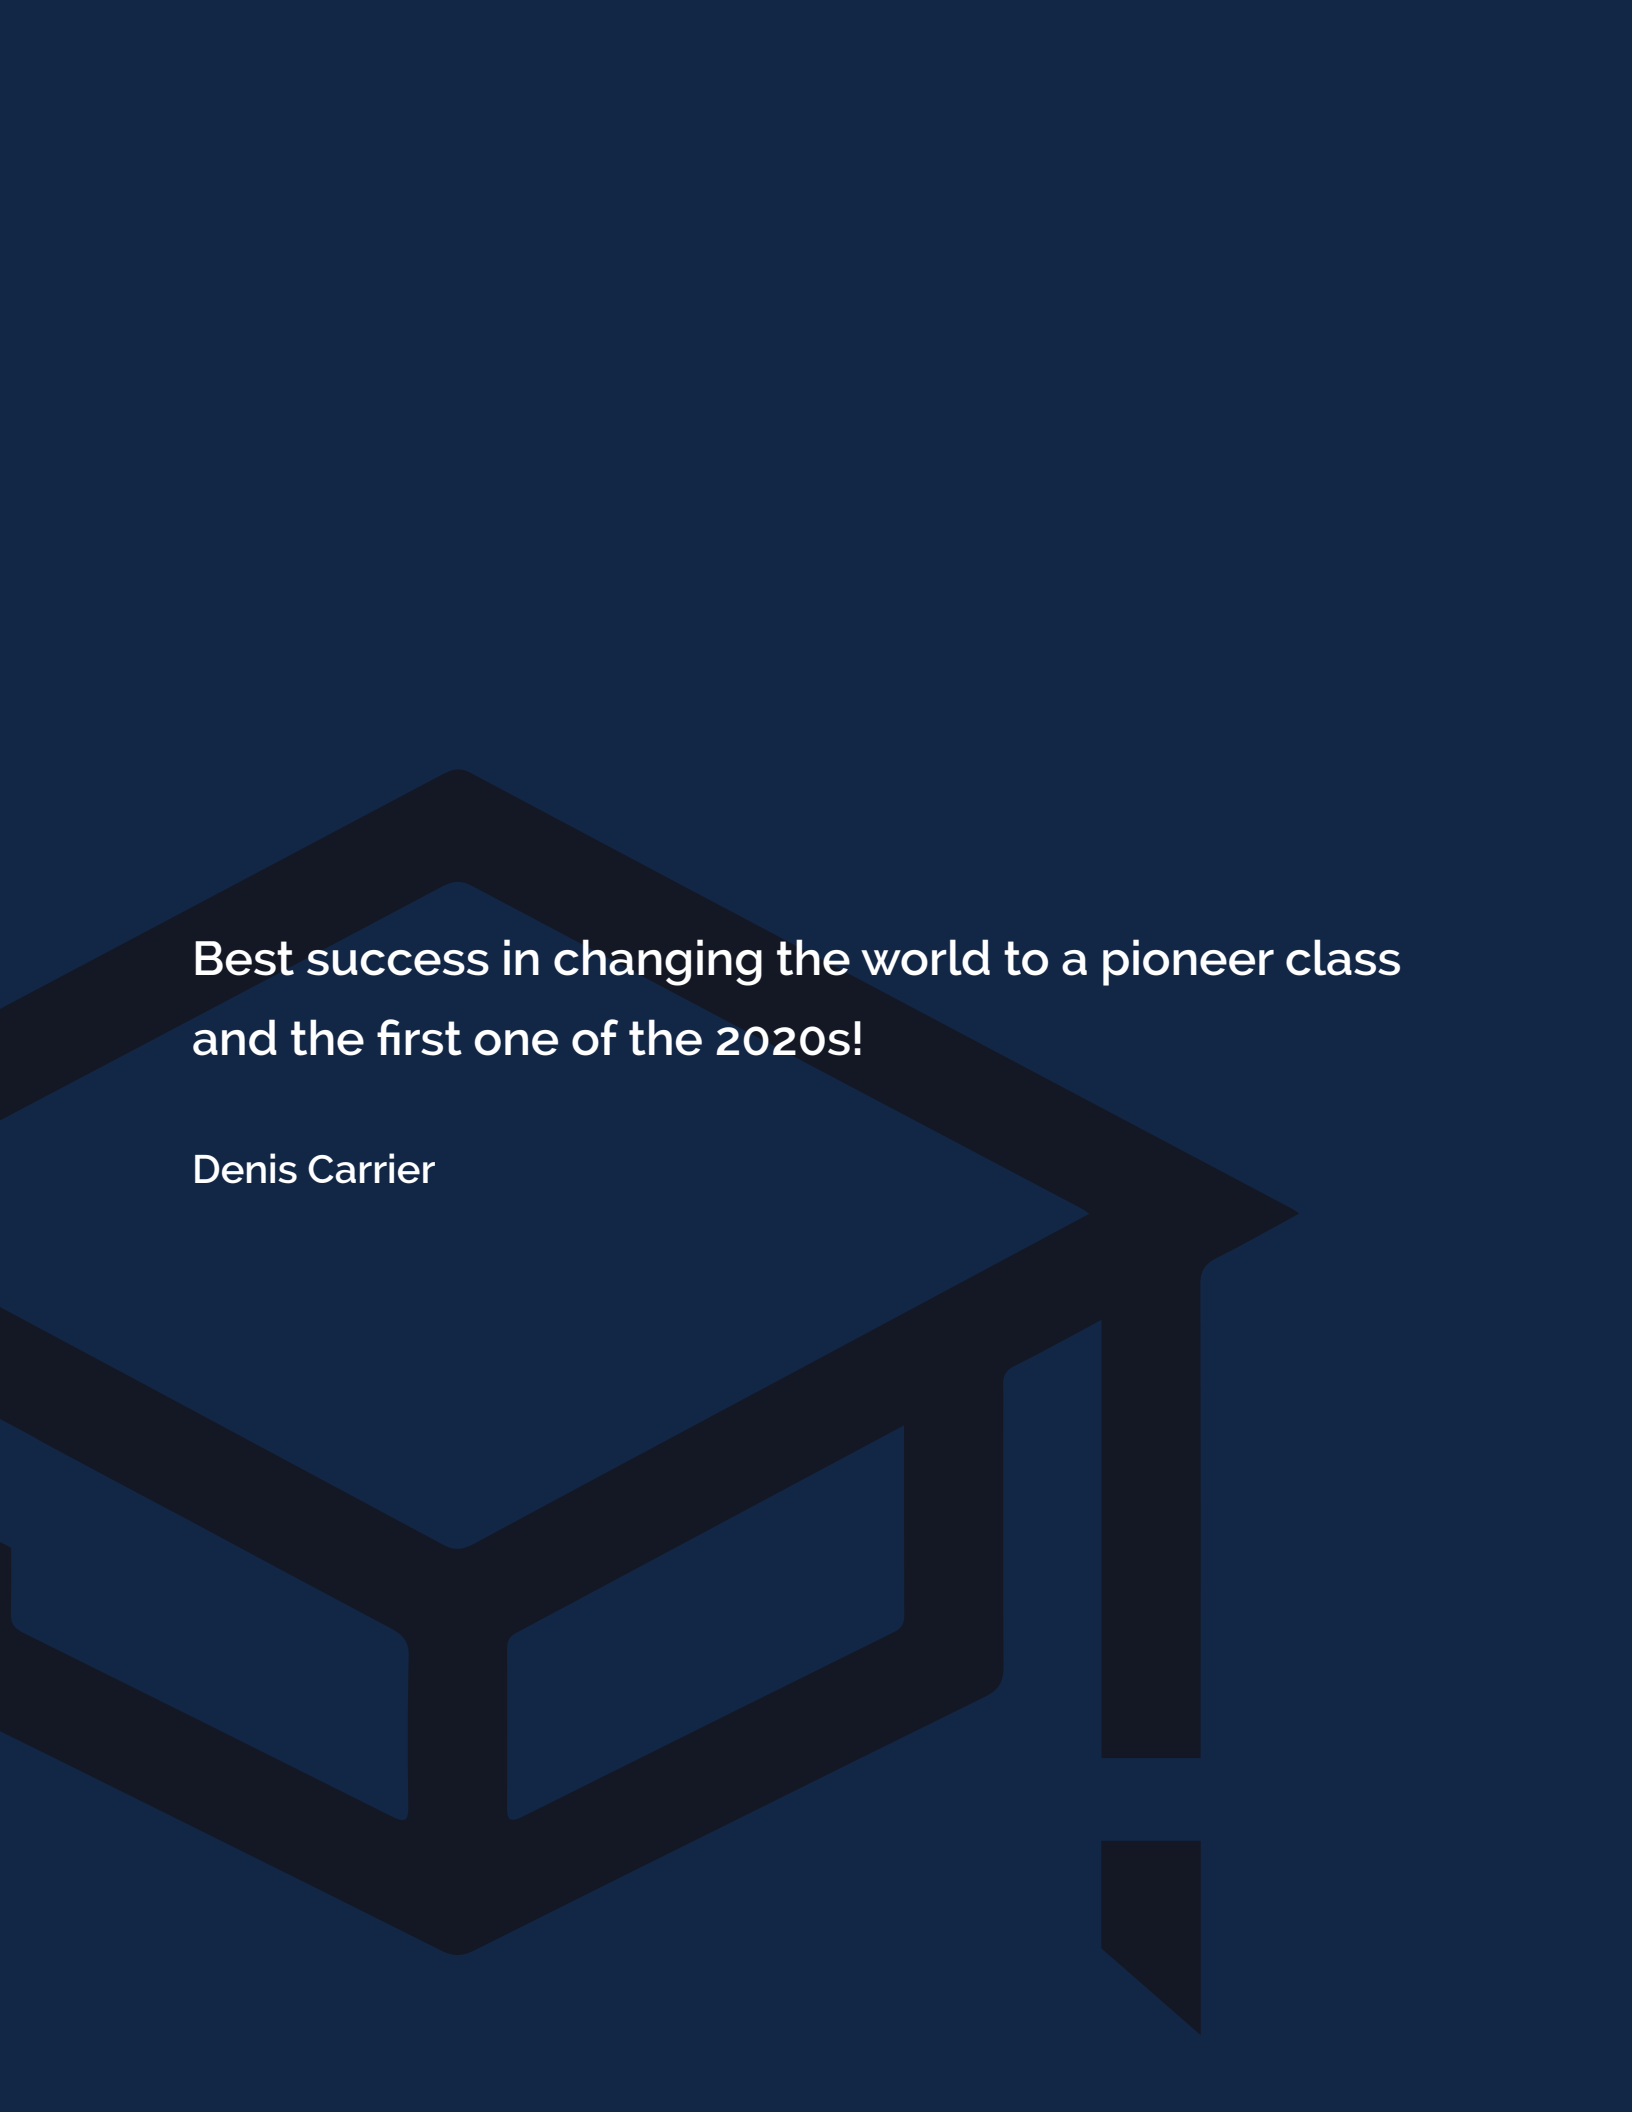

In this COVID-19 year, this saying takes on special meaning. Probably the most challenging parts of your CEGEP experience were the first few weeks of the first semester as is typically the case and, then, the last weeks of your final semester under confinement with online courses. Both semesters put you to the test in very different ways.

Your success today attests to your grit and to your capacity to adapt to unprecedented circumstances. May these experiences remind you that you can rise up and shine no matter what life sends your way!

Lisa Birch, PhD

The last semester was full of unexpected challenges. We would not have succeeded without the understanding, dedication and incredible efforts of our students. It is in tough times that you can really see who the real leaders are... Our students passed with flying colours!

An abstract geometric graphic composed of dark blue and black lines forming a complex, multi-layered structure. It features a large, dark blue cube-like shape in the center, surrounded by various geometric forms like triangles and rectangles, creating a sense of depth and perspective. The overall design is minimalist and modern.

Best success in changing the world to a pioneer class
and the first one of the 2020s!

Sports are about hard work, practice, determination, commitment and teamwork. To succeed in the world of sport, an athlete must be both physically and mentally strong. You all had to sacrifice and work hard to get to where you are today.

Being an athlete carries a powerful sense of self and community.

Being a college student athlete is a unique experience.

That determination and perseverance that you've learned and honed is going to stay with you all your life.

The friendships you've made will last much longer than the memory of a loss or a bad game.

Dear seniors, it's been a great pleasure to have you part of our Athletic Program. We wish you good luck in your future endeavors.

Dear COVID-19 graduating cohort,

You have lived up to a formidable challenge in the last few weeks, that of completing your final semester at St. Lawrence online. Your success is as much a measure of your strength of character, your ability to adapt, your resilience and self-discipline, as it is of your academic skills. You have so much to be proud of! I am extremely impressed with what you have achieved in these trying circumstances, and you have been a true inspiration to me. I wish you all the best as you start writing up the next chapter of your life!

Regards,

Jacinthe Ruel

Spending three years in CEGEP Champlain St. Lawrence is one of the most amazing and memorable experiences in my life. I may leave the school but I'll surely carry the "Lion spirit" that will remind me to be brave always. Thanks to all the hardworks of all the teachers and staffs in SLC. You're behind of every student's success.

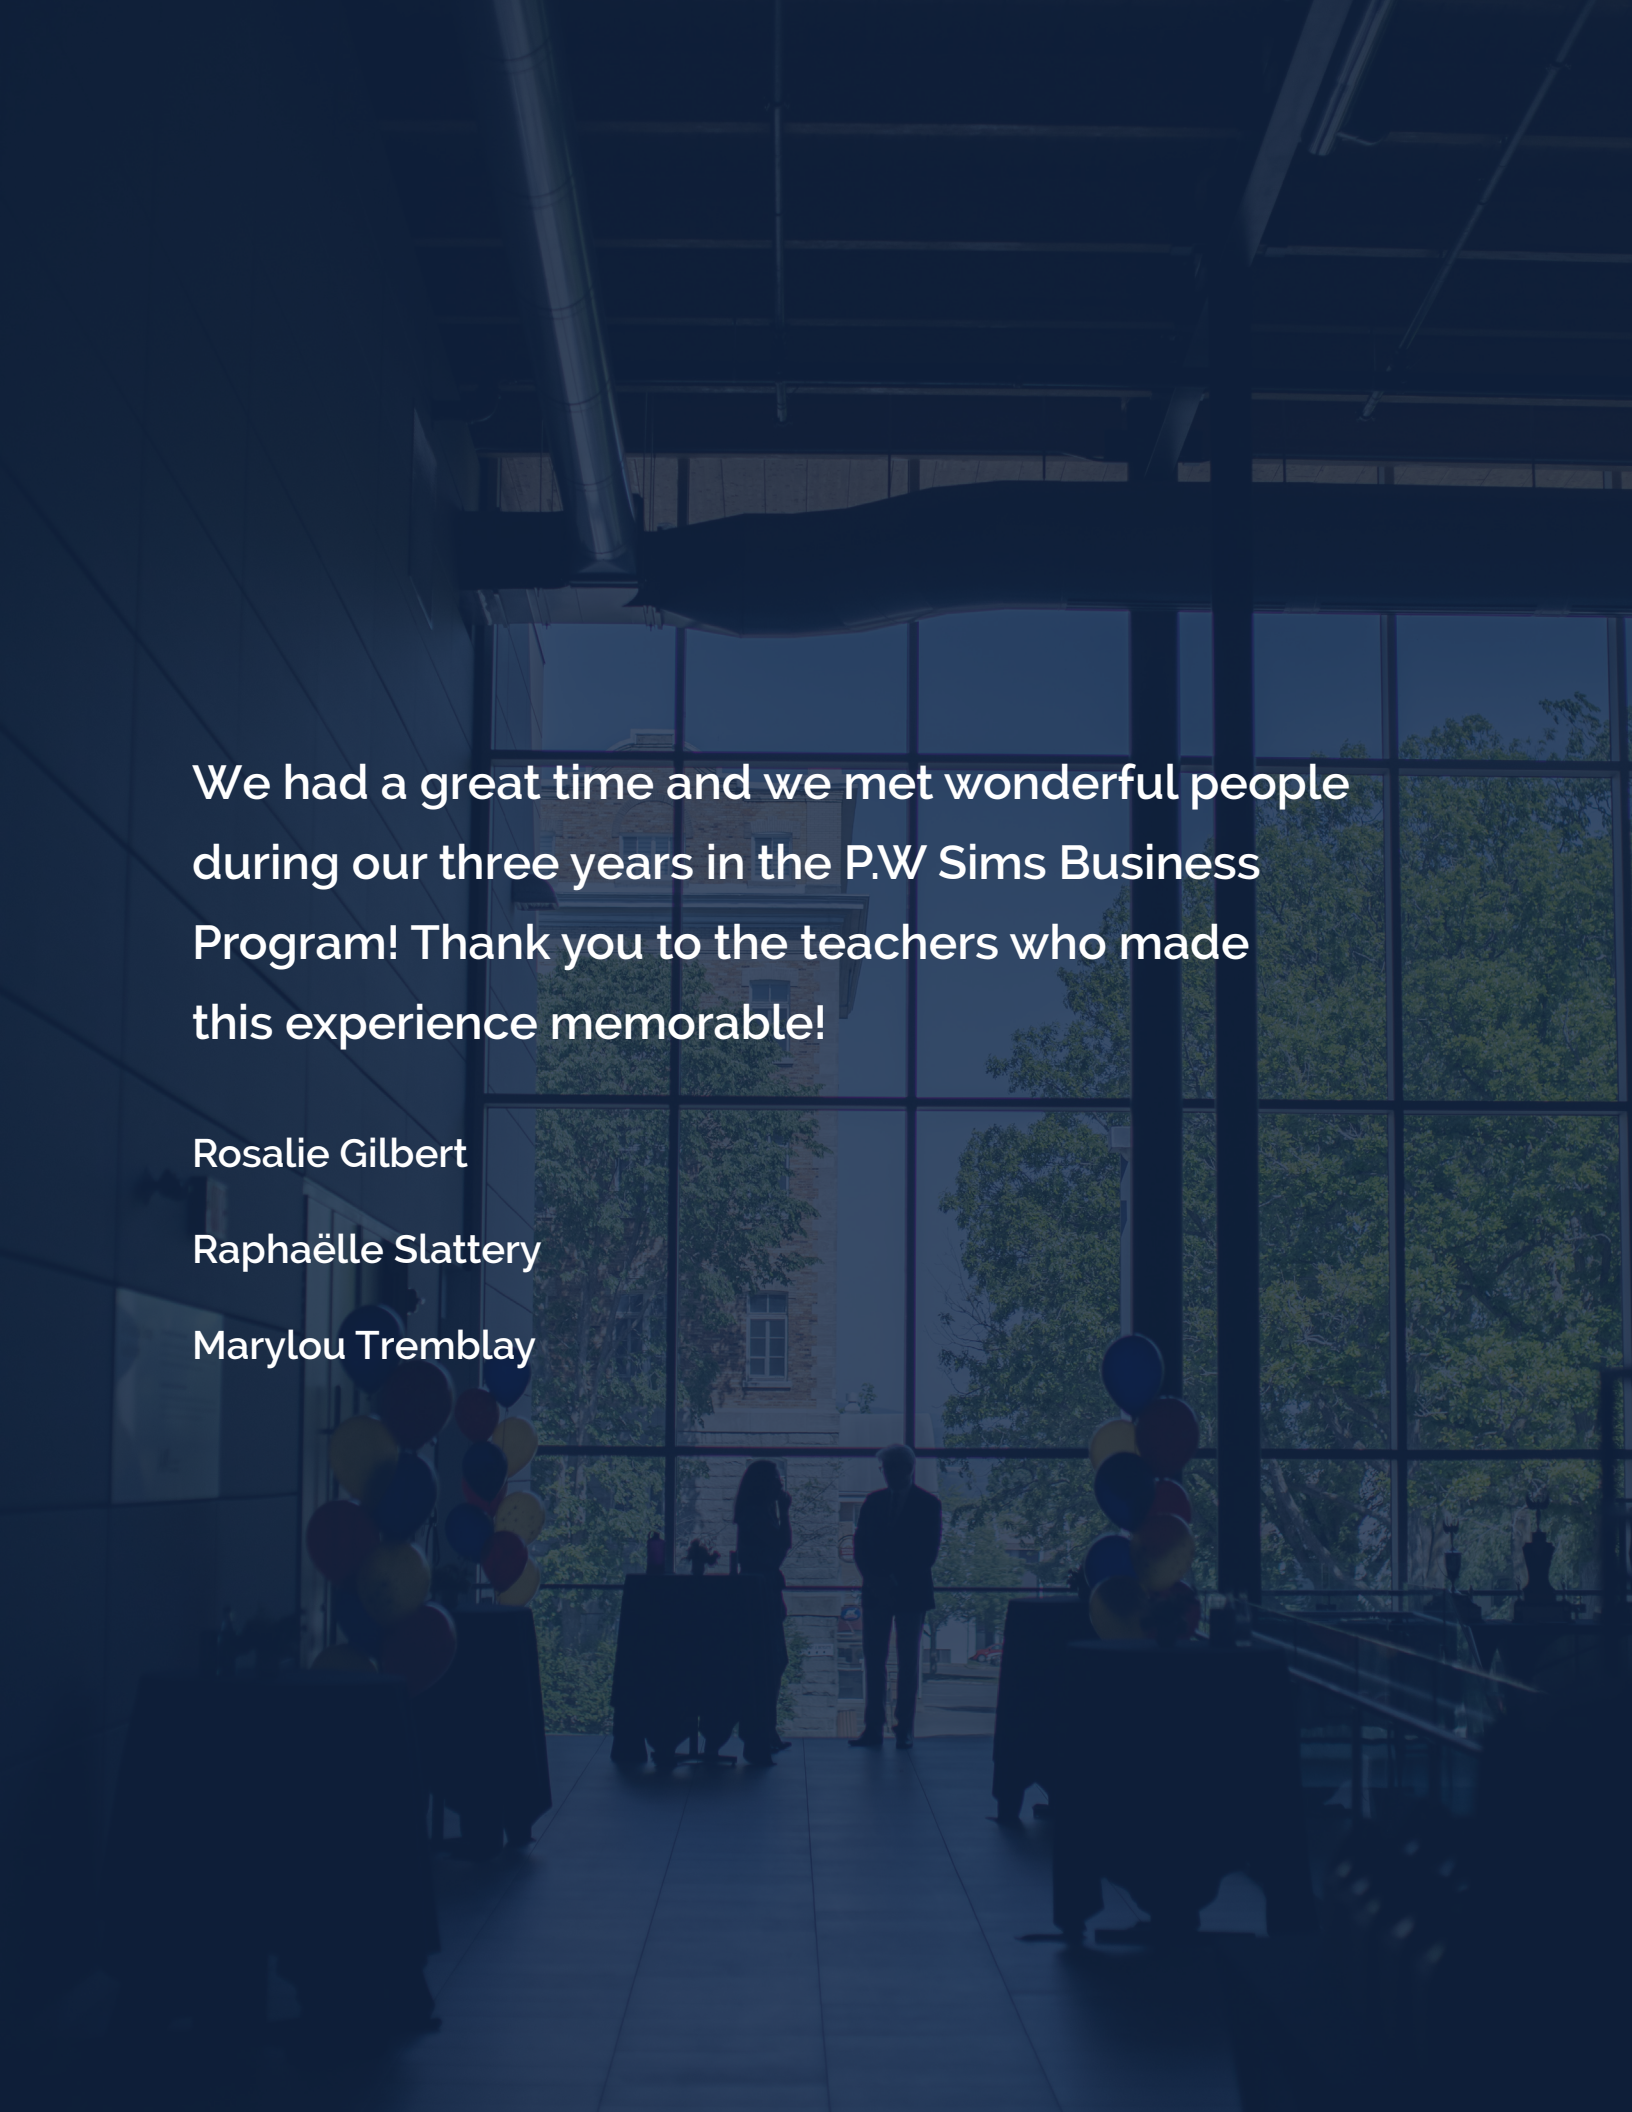

Congratulations graduates of 2020!

Congrats to all of you who are graduating this year.
Graduating from college is a great accomplishment.
To my fellow classmates graduating, I wish I could see
you all evolve into autonomous adults, but you know
what they say; A watched pot never boils.

Vincent Bleau

We had a great time and we met wonderful people during our three years in the P.W Sims Business Program! Thank you to the teachers who made this experience memorable!
