Overall, although there is an increase in incompletes, the success rates remain good. The success rate for students that completed all their courses remains very good as well.
 - Enrolment figures for the winter semester remain quite stable although courses were and will continue to be given online. St. Lawrence has its highest winter enrolment of the last years.
 - Essential services only will be on campus such as IT, cleaning, building services, library and labs
 - An update on the virtual Open House activities was provided. The event went very well.
 - Information was asked about the success rates of first semester students. Also the comparison of the overall averages for this year versus past years was also requested. It will be provided at the next Board.

9. Varia

- Champlain Regional College training on Chapter 2 (P. Hannigan)
 - Two sessions are scheduled on Chapter 2 for February 8 and February 15, 2020. The Chair will discuss with them to make sure the material is not the same that was presented by Mr. Brassat in December.
- Article in Le Devoir
 - The DCC updated the members on the article published in Le Devoir in December about English CEGEPs. The article covered the St. Lawrence building expansion project that was completed five years ago. No damage or concern further to this article. Please refer any journalist or questions directly to Mr. Berryman.
- Bylaw 3 and evaluation process
 - The members held a serious discussion and expressed great concerns about the current procedure and the process that needs to be updated. Governing Board members had not been aware of the evaluation of the Director General at the Board of Governors, although they had received a questionnaire about this subject.
